Virtual Experience Programs

Deloitte Australia – Data Analytics Job Simulation (Forage)

- Completed a virtual job simulation focused on real-world data analytics tasks.
- Performed data analysis and generated business insights from datasets.
- Applied Excel and data visualization techniques to support decision making.
- Communicated findings through dashboards and reports.

Deloitte Australia – Technology Job Simulation (Forage)

- Completed a virtual software engineering job simulation.
- Solved practical programming and debugging tasks.
- Applied Object-Oriented Programming concepts in software development scenarios.
- Improved understanding of software development lifecycle and engineering best practices.

Relevant Coursework

DSA • OOP • DBMS • Operating Systems • Computer Networks

Achievements

- Developed and deployed a responsive Amazon Clone using GitHub Pages.
- Solved 48+ coding problems across LeetCode and GeeksforGeeks.
- Currently learning Java Backend Development using Spring Boot.
